EXTRACTION UNIT CONNECTION

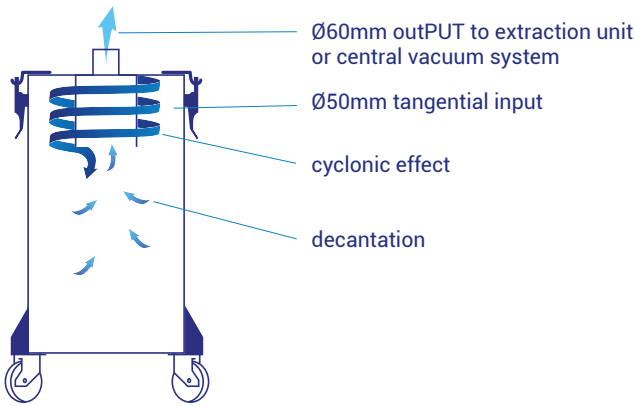

COMPLETE SYSTEM
Includes reel and trolley for more mobility

MOBILITY
Wheels for easy movement

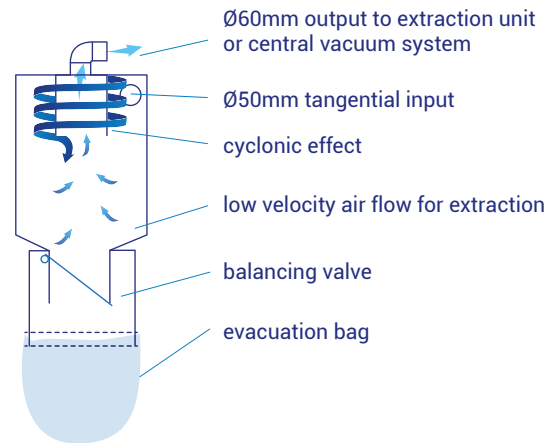

PRODUCT DESCRIPTION

Cleaning of workstations is often done with a broom or air blowers, which resuspends harmful particles and re-exposes operators to their risks. ENGMAR workstation cleaning kits are connected to the extraction unit or central vacuum system and prevent dust from being resuspended during cleaning operations.

KBCN CYCLONE CLEANER

KBCNL - KBCNF - KBCNC CYCLONE CLEANER
