PRODUCT DESCRIPTION

ENGMAR extraction table are made to protect the health of welders with an extraction of welding fumes and particles during welding and grinding. The **TABFLOW** table is a compact, independent plug&play extraction solution. The fan and filtration system are fitted as standard, so the table does not need to be connected to the network. Thanks to the cartridges used, the **TABFLOW** table guarantees 99.9% filtration of particles down to 1.6 micrometre with an efficiency of 99%. Once extracted and filtered, the dust is collected in a drawer under the workplan.
