ENGMAR | Innovative extraction solutions for the protection of welders

TIG EXTRACTION TORCH T17
ERGOFLOW

MADE IN FRANCE

GAS

PROTECT YOURSELF AGAINST THE INVISIBLE BUT HARMFUL PARTICLES OF TIG WELDING

STAINLESS STEEL/STEEL WELDING AND ALUMINIUM
40% saving on shielding gas

ROTATION OF THE TORCH BODY
45° rotation of the torch body to the right or the left

BUTTONS POTENTIOMETER
Various switch options

ERGONOMIC HANDLE
180° axial rotation of the handle

LEATHER SHEAT

PRODUCT BENEFITS

- **Excellent extraction capacity**
- **Optimum accessibility**
- **Ultra-ergonomic**, **easy-to-handle** torch

CE EUROPEAN NORMS

- EN 21904-1
- EN 21904-4
- EN 60974

WHY USE AN EXTRACTION TORCH FOR TIG WELDING?

Although visible emissions are relatively low during TIG welding, very large quantities of gases, particles and nanoparticles that are hazardous to health are emitted.

The TIGFLOW T17 extraction torch captures these pollutants at the source of emission, thus preventing carcinogenic gases and particles from reaching operators' respiratory tracts. The TIGFLOW T17 extraction torch is an efficient production tool, enabling operators to work in the best possible conditions. Its lightness and flexibility make it easy for operators to use on a daily basis, while protecting their health.

TECHNICAL DATA FOR THE EXTRACTION TORCH

	GAS COOLED
COOLING	150 A DC/125 A AC
DUTY CYCLE	60%
ELECTRODES Ø	1.6 - 3.2 mm

PRODUCT FEATURES

- 90° rotation of the torch body
- Several button switch versions
- Delivered without adapters. Adapters for all brands available on request.
- Fitted with STAINLESS STEEL/STEEL consumables, ready to weld
